EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013 (“ACT”)

ITEM NO. 3 - RATIFICATION OF REMUNERATION OF THE COST AUDITOR FOR THE FINANCIAL YEAR 2026-27:

As per Section 148 of the Companies Act, 2013 (‘the Act’) read with the Companies (Audit and Auditors) Rules, 2014, the Board while appointing the Cost Auditor is required to approve the remuneration payable to them as per the recommendation of the Audit Committee and the remuneration so approved by the Board shall be ratified by the Shareholders.

Accordingly, the Board of Directors of the Company has on the recommendation of the Audit Committee, approved the appointment and remuneration of M/s. Dilip M. Malkar & Co., Cost Accountant as the Cost Auditors of the Company, to conduct audit of cost records of the Company for the Financial Year ending March 31, 2027, at a remuneration of Rs. 80,000/- (Rupees Eighty Thousand only) plus applicable taxes & re-imbursement of out-of-pocket expenses.

The consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 3 of the Notice for ratification of the remuneration payable to the Cost Auditors for the Financial Year ending March 31, 2027. The Board recommends passing of the resolution as set out at Item No. 3 as an **Ordinary Resolution**.

None of the Directors, Key Management Personnel of the Company, or their relatives, are concerned or interested in the said resolution.

ITEM NO. 4 – APPROVAL OF THE ALTERATION IN THE ARTICLES OF ASSOCIATION OF THE COMPANY:

The Company has adopted a new set of Articles of Association (“AOA”) of the Company in its Extra Ordinary General Meeting of the Company held on September 1, 2025, to reflect the requirements of the stock exchanges with which the Company intends to list its Equity Shares and requirements of the Companies Act, 2013.

However, there needs to alter certain clauses of the AOA to commensurate with the requirements of the stock exchanges with which the Company intends to list its Equity Shares and the Companies Act, 2013.

Accordingly, the Board of Directors of the Company proposes to seek approval of shareholders by way of special resolution to make the alteration in the Articles of Association of the Company.

The Board of Directors recommends the resolution set out at Item Nos. 4 of the Notice for approval of the members of the Company. The Board recommends passing of the resolution as set out at Item No. 4 as a **Special Resolution**.

None of the Directors, Key Management Personnels of the Company, or their relatives, are concerned or interested in the said resolution.

18. STATUTORY AUDITORS AND AUDITORS' REPORT:

Pursuant to the provisions of Section 139 of the Act, and rules made thereunder, the Members of the Company at their 14th Annual General Meeting had re-appointed S R B C & Co. LLP, Chartered Accountants, Mumbai, bearing ICAI Firm Registration No. 324982E/E300003, as the Statutory Auditors of the Company for Five Financial Years to hold office from the conclusion of the 14th AGM held on September 30, 2024 until the conclusion of 19th AGM of the Company to be held in the calendar year 2029.

The Auditors have confirmed that they have subjected themselves to the peer review process of Institute of Chartered Accountants of India (ICAI) and hold a valid certificate issued by the Peer Review Board of the ICAI.

M/s. S R B C & Co. LLP, Chartered Accountants, have submitted their Report on the Financial Statements of the Company for the F.Y. 2025-26, which forms part of the Annual Report 2025-26.

There are no qualifications, reservations, adverse remark or disclaimer made by the Statutory Auditors in their Audit Report except for the following observation -

Other Matters

Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for certain changes made, if any, using privileged/ administrative access rights, as described in note 51 to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software(s) where the audit trail has been enabled. Additionally, for the reasons stated in Note 48 to the financial statements, we are unable to comment on whether audit trail as per the applicable requirements has been preserved by the company as per the statutory requirements for record retention in respect of the year ended March 31, 2026.

Board's Comment on the Auditor's Report:

The Board has noted the observation of the Statutory Auditors regarding the audit trail (edit log) feature in the Company's SAP system.

The Company has implemented appropriate controls over the use of privileged/administrative access, and the Statutory Auditors have not reported any instance of tampering with the audit trail during the course of the audit. The Company is taking necessary steps, in consultation with its SAP support team, to strengthen the system configuration and record retention process to ensure compliance with the applicable statutory requirements.

Emphasis of Matter

We draw attention to Note 42 to the consolidated financial statements regarding restatement of prior period comparatives for the year ended March 31, 2025, to give the effect of the adjustments arising

ANNEXURE E

DISCLOSURE OF 'GLASS WALL SYSTEMS (INDIA) LIMITED - EMPLOYEE STOCK OPTION PLAN 2025' ("ESOP 2025"/ "PLAN"):

To foster a high-performance culture, retain key talent in an increasingly competitive market, and enable meaningful wealth creation for employees, Glass Wall Systems (India) Limited ("the Company") recognizes the strategic importance of offering long-term, equity-based incentives. Granting Employee Stock Options ("Options") is a powerful mechanism to attract, motivate, and retain high-calibre talent, while ensuring that individual contributions are closely aligned with the Company's long-term growth objectives.

Unlike fixed cash pay-outs, equity incentives create a deeper sense of ownership and accountability, thereby reinforcing employees' commitment and aligning their interests with those of the Company's shareholders.

In line with the Company's evolving strategic objectives and talent retention priorities, it is proposed to implement an equity incentive scheme titled "Glass Wall Systems (India) Limited – Employee Stock Option Plan 2025" ("ESOP 2025" or "Plan"), comprising a pool of up to 0.5% of the Paid up Equity Share Capital of the Company i.e. 4,23,192 (Four Lakh Twenty-Three Thousand One Hundred Ninety-Two) Options. The Plan is intended to cover eligible employees of the Company as well as its subsidiary company(ies), thereby aligning employee interests with long-term shareholder value creation.

The proposed Plan is in compliance with Section 62(1)(b) and other applicable provisions, if any, of the Companies Act, 2013 read with Rule 12 of the Companies (Share Capital and Debentures) Rules, 2014, and the Securities and Exchange Board of India (Share Based Employee Benefits & Sweat Equity) Regulations, 2021 ("SBEB Regulations").

Accordingly, the Nomination and Remuneration Committee ("Committee") and the Board of Directors ("Board") of the Company at their respective meetings held on August 31, 2025 and August 31, 2025 respectively, had approved the introduction of the ESOP 2025.

Particulars as required under the applicable law:

a) Brief description of the Plan:

The Plan provides for grant of employee stock options ("Options") to the permanent employees of the Company and its subsidiary(ies) (collectively referred to as "**employees**"), as may be permissible under the Companies Act, 2013 and the SBEB Regulations.

Upon vesting of Options, the eligible employees earn a right (but not obligation) to exercise the vested Options within the exercise period and obtain equity shares of the Company which shall be allotted by the Company subject to receipt of exercise price and satisfaction of any tax obligation arising thereon.

The Committee shall administer the Plan. All questions of interpretation of the Plan shall be determined by the Committee as per the terms of the Plan and applicable law.

b) Total number of Options to be granted:

A total of 4,23,192 (Four Lakh Twenty-Three Thousand One Hundred Ninety-Two) Options i.e. up to 0.5% of the Paid up Equity Share Capital of the Company would be available for being granted to the eligible employees

under the Plan. Each Option when exercised would be converted into one equity share of face value of Rs. 2/- (Rupees Two only) each fully paid-up.

Options lapsed or cancelled due to any reason including the reason of lapse of exercise period or due to resignation of the employees or otherwise, would be available for being re-granted. The Committee is authorized to re-grant such lapsed / cancelled Options as per the Plan.

In case of any corporate action(s) such as rights issue, bonus issue, merger and sale of division, etc, a fair and reasonable adjustment shall be made to the Options granted. Accordingly, if any additional equity shares are required to be issued by the Company to the option grantees for making such fair and reasonable adjustment, the ceiling of Options/ equity shares as aforesaid shall be deemed to increase to the extent of such additional equity shares issued.

c) Identification of classes of employees entitled to participate in the Plan:

“Employee” means

a permanent employee of the Company working in India or out of India; or

- (ii) director of the Company, whether a whole-time director or not but excluding an independent director; or
- (iii) an employee as defined in clauses (i) or (ii) above of a subsidiary company, in India or outside India.

but shall not include:

- a) an employee who is a promoter or belongs to the promoter group; and
- b) a director who either by himself or through his relatives or through any body-corporate directly or indirectly, holds more than 10% of the outstanding equity shares of the Company.

Provided further that post listing, the term “Employee” shall be defined as below in compliance with SBEB Regulations:

“Employee” shall mean

- (i) an employee as designated by the Company, who is exclusively working in India or outside India; or
- (ii) a director of the Company, whether a whole-time director or not, including a non-executive director who is not a promoter or member of the promoter group, but excluding an independent director; or
- (iii) an employee as defined in sub-clauses (i) or (ii), of a subsidiary company, in India or outside India;

but does not include:

- a. an employee who is a promoter or a person belonging to the promoter group; or

INDEPENDENT AUDITOR'S REPORT

To the Members of Glass Wall Systems (India) Limited (formerly known as Glass Wall Systems (India) Private Limited)

Report on the Audit of the Standalone Financial Statements**Opinion**

We have audited the standalone financial statements of Glass Wall Systems (India) Limited (formerly known as Glass Wall Systems (India) Private Limited) ("the Company"), which comprise the Balance sheet as at March 31, 2026, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the backup of the books of account and other books and papers maintained in electronic mode has not been maintained on servers physically located in India on daily basis and for the matters stated in the paragraph (i)(vi) below on reporting under Rule 11(g)
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended, specified under section 133 of the Act;
 - (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above and paragraph (i)(vi) below.
- (g) With respect to the adequacy of the internal financial controls with reference to these standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (h) In our opinion, the managerial remuneration for the year ended March 31, 2026 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 32 to the standalone financial statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv.
 - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v. No dividend has been declared or paid during the year by the Company.

- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for certain changes made, if any, using privileged/ administrative access rights, as described in Note 47 to the standalone financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software(s) where the audit trail has been enabled. Additionally, for the reasons stated in Note 47 to the standalone financial statements, we are unable to comment on whether audit trail as per the applicable requirements has been preserved by the company as per the statutory requirements for record retention in respect of the year ended March 31, 2026.

*Net of amount paid under protest

- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority
- (c) Term loans were applied for the purpose for which the loans were obtained.
- (d) On an overall examination of the standalone financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

- (e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary. The Company does not have any associate or joint venture
- (f) The Company has not raised loans during the year on the pledge of securities held in its subsidiary. Further, the Company does not have any associate or joint venture joint ventures. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised any money during the year by way of initial public offer (including debt instruments). Hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company
- (b) The Company has complied with provisions of sections 42 and 62 of the Companies Act, 2013 in respect of the preferential allotment of shares during the year. Since the company has made a preferential allotment of shares for the purpose of acquisition of a subsidiary, no funds have been raised by the company and hence the requirement to report on the utilization of the funds is not applicable to the company.
- (xi) (a) No fraud by the Company and no fraud on the Company has been noticed or reported during the year.
- (b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by us in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government. Further, as represented to us by the management, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government. As represented to us by the management, secretarial audit is not applicable to the Company.
- (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a) to (c) of the Order is not applicable to the Company.
- (xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the standalone financial statements, as required by the applicable accounting standards.
- (xiv) (a) The Company has an internal audit system commensurate with the size and nature of its business.
- (b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- (xv) The Company has entered into non-cash transactions with the directors/ person connected with the director during the year, in relation to the acquisition of Yes Systems Private Limited against which purchase consideration has been discharged by way of issuance of shares of the Company, which in our opinion is covered under the provisions of Section 192 of the Act and approval for the same has been obtained in the general meeting of the Company.
- (xvi) (a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

(b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF GLASS WALL SYSTEMS (INDIA) LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone financial statements of Glass wall systems (India) Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls with Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally

Page 12 of 12

Glass Wall Systems (India) Limited

accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Glass Wall Systems (India) Limited

(Formerly known as Glass Wall Systems (India) Private Limited)

CIN: U74999MH2010PLC207187

Notes to the Standalone Financial Statements for the year ended 31 March 2026

1 Corporate Information

Glass Wall Systems (India) Limited (formerly known as Glass Wall Systems (India) Private Limited) ("the Company"), incorporated under the provisions of the Companies Act, 1956, is a leading façade engineering company in India, engaged in providing comprehensive solutions in architectural façades and glass curtain wall systems. The Company's registered office is located at 503-504, 5th Floor, A-Wing, Marathon Futurex, Mafatlal Mills Compound, N.M. Joshi Marg, Lower Parel (East), Mumbai - 400013, Maharashtra. The Company holds Corporate Identification Number (CIN) CIN: U74999MH2010PLC207187 and operates a manufacturing facility located at D-120, Vile Bhagad Industrial Area, Village Warchiwadi, Taluka Mangaon, Raigad-402308, Maharashtra.

Effective from 28 April 2025, the Company has been converted into a Public Limited Company. Pursuant to the conversion, its name has been changed from 'Glass Wall Systems (India) Private Limited' to 'Glass Wall Systems (India) Limited', and its Corporate Identification Number (CIN) has been updated from U74999MH2010PTC207187 to U74999MH2010PLC207187.

2 Material accounting policies

a) Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (as amended from time to time), (Ind AS compliant Schedule III), as applicable, (the "Ind AS Financial Statements"), which have been approved by the Board of Directors at their meeting held on 13 August 2026.

All the amounts included in the said financial statements are reported in Million of Indian Rupees, which is also the functional currency of the Company, and are rounded to the Million, except per share data and unless stated otherwise.

b) Summary of material accounting policies

The Company maintains its accounts on accrual basis following historical cost convention, except for certain assets and liabilities, investment through profit and loss (FVTPL) and share based payment that are measured at fair value in accordance with Ind AS.

The Company has prepared the standalone financial statements on the basis that it will continue to operate as a going concern.

In preparing these standalone financial statements, management has made certain judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively in the year in which the estimates are revised and in any future periods affected (refer note 2(x)).

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

The Company has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

All liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- It does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

c) Revenue recognition

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done using input method by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation as it best depicts the transfer of control that occurs as costs are incurred. The Company has generally concluded that it is the principal in its revenue arrangements.

The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

Glass Wall Systems (India) Limited

(Formerly known as Glass Wall Systems (India) Private Limited)

CIN: U74999MH2010PLC207187

Notes to the Standalone Financial Statements for the year ended 31 March 2026

- (a) the customer simultaneously consumes the benefit of the Company's performance or
- (b) the customer controls the asset as it is being created/ enhanced by the Company's performance or
- (c) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents,

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

(i) Revenue from construction/project related activity

Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs. Projects which are completed less than 10% of the total estimated project cost, revenue is recognised to the extent of actual cost incurred. Determination of revenues under the percentage of completion method necessarily involves making estimates by the management.

Generally, the Company receives mobilisation advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

Contract balances and trade receivables

For contracts where the aggregate of contract cost incurred to date plus recognised profits (or minus recognised losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as "Unbilled revenue". For contracts where progress billing exceeds the aggregate of contract costs incurred to-date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as "Billing in Excess of Contract Revenue". Amounts received before the related work is performed are disclosed in the Balance Sheet as contract liability and termed as "Advances from customer". The amounts billed on customer for work performed and are unconditionally due for payment i.e. only passage of time is required before payment falls due, are disclosed in the Balance Sheet as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of contract asset and is reclassified as trade receivables when it becomes due for payment.

Impairment loss is recognised in profit or loss to the extent the carrying amount of the contract asset exceeds the remaining amount of consideration that the Company expects to receive towards remaining performance obligations (after deducting the costs that relate directly to fulfil such remaining performance obligations). The Company recognises impairment loss (termed as provision for expected credit loss in the financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

(ii) Other operating revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the performance obligation is satisfied and right to receive the income is established.

(a) Export incentives

Export incentives receivable in the form of duty credit scrips is recognised as other operating income in the standalone statement of profit and loss in the period in which the export is done or the application is made to the government authorities and to the extent there is no uncertainty towards its receipt.

(b) Scrap sales

The Company recognises income from scrap sales on accrual basis. However, where the ultimate collection of the same is uncertain, revenue recognition is postponed to the extent of uncertainty.

(iii) Other income

(a) Interest income

Interest income on financial asset is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instruments.

(b) Dividends

Dividend is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

d) Property, plant and equipment (PPE)

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and accumulated impairment, if any. All directly attributable costs related to the acquisition of PPE and borrowing costs in case of qualifying assets are capitalised in accordance with the Company's accounting policy.

For transition to Ind AS, the Company has elected to adopt as deemed cost, the carrying value of PPE measured as per previous GAAP less accumulated depreciation and cumulative impairment on the transition date of 1 April 2023.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the standalone statement of profit and loss during the period in which they are incurred.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as Capital work-in-progress (CWIP). CWIP is stated at cost net of accumulated impairment loss, if any

PPE is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognised in the standalone statement of profit and loss in the same period.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under "Other Non-Current Assets".

e) Depreciation

Depreciation on Property, Plant & Equipment except building is calculated on a written down value basis using the rates arrived at based on the useful lives estimated by the management. For Building depreciation is calculated on straight line basis using the rates arrived at based on the useful lives estimated by the management.

Depreciation method is reviewed at each financial year end to reflect the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life/residual value is accounted on prospective basis.

Depreciation on additions to/deductions from, owned assets is calculated pro-rata to the period of use.

Based on technical estimates, the useful lives of certain Plant & Equipment's and Furniture & Fixtures are lower than those indicated in Schedule II to Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflects fair approximation over period which the assets are likely to be used.

The Company has used the following life to provide depreciation on its property, plant & equipment.

Assets	Useful lives as per Companies Act (years)	Useful lives estimated by the Company (years)
Buildings	60	60
Factory Buildings	3 to 30	5 to 30
Plant & Equipment's	15 to 25	5 to 25
Furniture & Fixtures	10	3 to 10
Electrical Fittings	10	10
Office Equipment's - Computers	3	3
Office Equipment's - Others	5	3 to 6
Vehicles	6 to 30	8 to 10

Leasehold land is amortized on a straight line basis over the period of lease i.e. 90 to 95 years

f) Investment properties

Properties held to earn rentals and/or capital appreciation are classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

For transition to Ind AS, the Company has elected to adopt as deemed cost, the carrying value of investment property as per previous GAAP less accumulated depreciation and cumulative impairment as on the transition date of 1 April 2023.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment properties are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Company depreciates building component of investment property over 60 years from the date of original purchase.

Though the Company measures investment properties using cost-based measurement, the fair value of investment properties are disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Glass Wall Systems (India) Limited

(Formerly known as Glass Wall Systems (India) Private Limited)

CIN: U74999MH2010PLC207187

Notes to the Standalone Financial Statements for the year ended 31 March 2026

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment properties the Company considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment properties only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

Advances paid towards the acquisition of investment properties outstanding at each balance sheet date is classified as Advance for property under "Other Non-Current Assets".

g) Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and accumulated impairment, if any. All directly attributable costs and other administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets.

Intangible assets are amortised uniformly over the best estimate of their useful lives. The Company has estimated the useful life of software ranging from 3 - 5 years from the date of acquisition. The method of amortisation and useful life are reviewed at the end of each financial year with the effect of any changes in the estimate being accounted for on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

h) Impairment of assets

As at the end of each financial year, the carrying amounts of PPE, investment property and intangible assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, PPE, investment property and intangible assets are tested for impairment so as to determine the impairment loss, if any.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

(i) in the case of an individual asset, at the higher of the fair value less costs of disposal and the value-in-use; and

(ii) in the case of a cash generating unit (the smallest identifiable Company of assets that generates independent cash flows), at the higher of the cash generating unit's fair value less costs of disposal and the value-in-use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount.

When an impairment loss recognised earlier is subject to full or partial reversal, the carrying amount of the asset (or cash generating unit), except impairment loss allocated to goodwill, is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss (other than impairment loss allocated to goodwill) is recognised immediately in the Statement of Profit and Loss.

i) Employee Benefits

(i) Defined contribution plans

In accordance with applicable Indian Law, eligible employees receive benefits from Provident Fund, Employee State Insurance Scheme and Labour welfare fund which is defined contribution plan. In case of Provident fund and Employee State Insurance Scheme, both the employee and employer make monthly contributions to the plan, which is administrated by the Government Authorities, each equal to the specific percentage of employee's basic salary. The Company has no further obligation under the plan beyond its monthly contributions. Obligation for contributions to the plan is recognised as an employee benefit expense in the Statement of Profit and Loss when incurred.

(ii) Defined benefit plans (Gratuity)

In accordance with applicable Indian Law, the Company provides for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering eligible employees. The Gratuity Plan provides a lumpsum payment to vested employees, at retirement or termination of employment, and amount based on respective last drawn salary and the years of employment with the Company. The Company's net obligation in respect of the Gratuity Plan is calculated by estimating the amount of future benefits that the employees have earned in return of their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service cost and the fair value of plan assets are deducted. The discount rate is yield at reporting date on risk free government bonds that have maturity dates approximating the terms of the Company's obligation. The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service cost and the present value of the economic benefits available in the form of any future refunds from the plan or reduction in future contribution to the plan.

The Company recognises all remeasurements of net defined benefit liability/asset directly in other comprehensive income and presented within equity.

iii) Compensated absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated as on the reporting date. The Company presents the entire compensated absences as a short term provisions, since employee has an unconditional right to avail the leave at any time during the year.

iv) Short term benefits

Employee benefits such as salaries, wages, short-term compensated absences, bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the service.

j) Share-based payment arrangements

The stock options granted to employees in terms of the Company's Stock Options Schemes, are measured at the fair value of the options at the grant date. The Company recognises the expense over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied, as determined on the grant date, based on the fair value of the options. If a grant lapses after the vesting period, the cumulative expenses in respect of such grant is transferred to the Retained Earnings within equity.

The share-based payment equivalent to the fair value as on the date of grant of employee stock options granted to key managerial personnel is disclosed as a related party transaction in the year of grant.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

k) Leases

The Company assesses at contract inception whether a contract contains a lease.

(i) As a Lessee

Assets taken on lease are accounted as right-of-use assets and the corresponding lease liability is recognised at the lease commencement date.

Initially the right-of-use asset is measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, as reduced by any lease incentives received.

The lease liability is initially measured at the present value of the lease payments, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or a rate, or a change in the estimate of the guaranteed residual value, or a change in the assessment of purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset

The right-of-use asset is measured by applying cost model i.e. right-of-use asset at cost less accumulated depreciation and cumulative impairment, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date to the end of the lease term or useful life.

Lease payments associated with following leases are recognised as expense on straight-line basis:

(a) Leases which are short-term of 12 months or less

(ii) As a Lessor

Assets given on lease are classified either as operating lease or as finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Asset held under finance lease is initially recognised in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance lease income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on Company's net investment in the lease. A lease which is not classified as a finance lease is an operating lease.

The Company recognises lease payments in case of assets given on operating leases as income on a straight-line basis. The Company presents underlying assets subject to operating lease in its balance sheet under the respective class of asset.

1) Financial instruments

Financial assets and/or financial liabilities are recognised when the Company becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at fair value except for trade receivables not containing a significant financing component are initially measured at transaction price. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such financial assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

(i) Financial assets:

A. All recognised financial assets are subsequently measured in their entirety either at amortised cost or at fair value as follows:

1. Investment in equity instruments issued by subsidiary are measured at cost less impairment.

The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss, if any

2. Investments in equity instruments issued by other than subsidiary are classified as at FVTPL, unless the related instruments are not held for trading and the Company irrevocably elects on initial recognition to present subsequent changes in fair value in Other Comprehensive Income.

3. Trade receivables, cash and cash equivalents, Bank balances other than cash and cash equivalents, Other financial assets, Loans – at amortised cost.

B. A financial asset is primarily derecognised when:

1. the right to receive cash flows from the asset has expired, or

2. the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount at the date of derecognition and the consideration received is recognised in profit or loss.

C. Impairment of financial assets: Impairment loss on trade receivables and contract assets is recognised using expected credit loss model, which involves use of a simplified approach constructed on the basis of historical credit loss experience as permitted under Ind AS 109 and is adjusted for forward looking information. Impairment loss on investments is recognised when the carrying amount exceeds its recoverable amount. For all other financial assets, expected credit losses are recognised based on the difference between the contractual cash flows and all the expected cash flows, discounted at the original effective interest rate. ECLs are measured at an amount equal to 12-month expected credit losses or at an amount equal to lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Financial liabilities:

A. The Company's financial liabilities include trade payables, borrowings and other financial liabilities, are measured at amortised cost using Effective Interest Rate (EIR) method.

B. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

C. Compound financial instruments issued by the Company which can be converted into fixed number of equity shares at the option of the holders irrespective of changes in the fair value of the instrument are accounted by recognising the liability and the equity components separately. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and the equity components in proportion to their initial carrying amounts. Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequently.

m) Inventories

Raw materials are valued at lower of cost and net realizable value. Cost is determined using weighted average cost basis. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

n) Cash and bank balances

Cash and bank balances include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management.

o) Foreign currencies

The functional currency and presentation currency of the Company is Indian Rupee.

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised profit or loss are also recognised in

p) Segment information

Geographical segment are reported in manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

The Board of Directors of the Company has been identified as the Chief Operating Decision Maker which reviews and assesses the financial performance and makes the strategic decisions.

q) Taxes

Tax expense comprises current tax expense and deferred tax

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company reflects the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

(ii) Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

- In respect of deductible temporary differences associated with investments in subsidiary, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences

- In respect of taxable temporary differences associated with investments in subsidiary, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(iii) Goods and Service Tax ("GST")

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;
- When receivables and payables are stated with the amount of tax included.

r) Provisions, contingent liabilities and contingent asset

Provisions are recognised only when:

- (i) the Company has a present obligation (legal or constructive) as a result of a past event; and
- (ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- (iii) a reliable estimate can be made of the amount of the obligation.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

- (i) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- (ii) a present obligation arising from past events but is not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

s) Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- (i) estimated amount of contracts remaining to be executed on capital account and not provided for;
- (ii) uncalled liability on shares and other investments partly paid;
- (iii) other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of management.

Other commitments related to sales/procurements made in the normal course of business are not disclosed to avoid excessive details.

t) Assets held for sale

Non-current assets or disposal Companies comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met:

- (i) Decision has been made to sell.
- (ii) The assets are available for immediate sale in its present condition.
- (iii) The assets are being actively marketed and
- (iv) Sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

These are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of assets (disposal Company), excluding finance cost and income tax expenses.

u) Statement of cash flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the profit before tax excluding exceptional items for the effects of:

- (i) changes during the period in inventories and operating receivables and payables;
- (ii) non-cash items such as depreciation, provisions, unrealised foreign currency gains and losses; and
- (iii) all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as at the date of Balance Sheet.

v) Earnings per share

Basic earnings per share is computed using the net profit or loss after tax and weighted average number of shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss after tax and weighted average number of equity and potential equity shares outstanding during the year, except where the result would be anti-dilutive.

w) Government Grant

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

x) Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Other disclosures relating to the Company's exposure to risks and uncertainties includes:

- Capital management Note 45(e)
- Financial risk management objectives and policies Note 45
- Sensitivity analyses disclosures Notes 45 (a)

Judgements:

In the process of applying the Company's accounting policies, the Management has made the following judgements, which have the most significant effects on the amounts recognised in the standalone financial statements

(i) Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realisability of deferred tax assets arising from unused tax credits, the management considers convincing evidence about availability of sufficient taxable income against which such unused tax credits can be utilised. The amount of the deferred income tax assets considered realisable, however, could change if estimates of future taxable income changes in the future (refer note 43).

Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets, and also their likely economic lives based on various internal and external factors including relative efficiency, the operating conditions of the asset, anticipated technological changes, historical trend of plant load factor, historical planned and scheduled maintenance. This reassessment may result in change in depreciation and amortisation expected in future periods. It is possible that the estimates made based on existing experience are different from the actual outcomes and could cause a material adjustment to the carrying amount of property, plant and equipment. For the relative size of the Company's property, plant and equipment (refer note 2(d)).

(ii) Provisions and Contingencies

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change (refer note 18 to 23). In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Potential liabilities that are possible but not probable of an outflow of resources embodying economic benefits are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised (refer note 32).

(iii) Defined benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. (refer note 40).

Glass Wall Systems (India) Limited

(Formerly known as Glass Wall Systems (India) Private Limited)

CIN: U74999MH2010PLC207187

Notes to the Standalone Financial Statements for the year ended 31 March 2026

(iv) Expected credit loss

The measurement of expected credit loss on financial assets is based on the evaluation of collectability and the management's judgement considering external and internal sources of information. A considerable amount of judgement is required in assessing the ultimate realisation of the loans / receivables having regard to, the past collection history of each party and ongoing dealings with these parties, and assessment of their ability to pay the debt on designated dates (refer note 45(c)(i)).

(v) Cost to complete

Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

(vi) DLP estimation

DLP (Defect Liability Period) is a specified period after the completion of a construction project during which the contractor is responsible for rectifying any defects or faults that may arise. Although DLP is project specific, it is generally varying from 12 months to 24 months depending on the contractual condition. During the DLP, the contractor carries out repairs and fix any defects from his own cost which appear in the workmanship, so that, at the end of the DLP, all works are as per specifications of the contract. Accordingly, the Company makes provision of 1% of the revenue recognised from the construction contracts during the reporting period.

y) Recent accounting pronouncement

A) Amendment in Ind AS effective from 1 April 2025:

The Ministry of Corporate Affairs (MCA) has notified certain amendments to Ind AS. Key amendments relevant to the Company are summarised below:

(i) Ind AS 1 - Classification of liabilities as current or non-current:

The amendment clarifies the meaning of a right to defer settlement, requires that such right must exist at the end of the reporting period, and confirms that classification is not affected by the likelihood of exercising this right. It also clarifies that the terms of a convertible liability affect classification only if the embedded derivative is equity classified. In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

If there is a breach of a material covenant of a long-term loan arrangement on or before the end of the reporting period, resulting in the liability becoming payable on demand as at the reporting date, and the lender agrees after the reporting period but before the financial statements are approved for issue not to demand repayment for at least 12 months as a consequence of the breach, this shall be treated as an adjusting event. Accordingly, the entity is not required to classify the liability as current.

The amendment is to be applied retrospectively in accordance with Ind AS 8. The Company has evaluated the impact and determined that these amendments do not have a material effect on the classification or presentation of liabilities for the year ended 31 March 2026.

(ii) Ind AS 7 and Ind AS 107 - Disclosures: Supplier Finance Arrangements:

These amendments require enhanced disclosures to help users of financial statements understand the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual periods beginning on or after 1 April 2025. Comparative information for earlier periods and disclosures for interim periods ending on or before 31 March 2026 are not required. These amendments do not have an impact on recognition or measurement in the current financial statements.

(iii) Ind AS 12 - International Tax Reform: Pillar Two Model Rules:

The amendment introduces a mandatory temporary exception from recognising and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. This exception is applicable immediately and retrospectively, with additional disclosure requirements effective from 1 April 2025 (but not for interim periods ending on or before 31 March 2026).

The Company has concluded that the amendment does not have a material impact on its financial statements for the year ended 31 March 2026. The amendments had no impact on the Company's financial statements.

(iv) Amendments to Ind AS 21 - Lack of exchangeability

The Ministry of Corporate Affairs (MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2025, which amend Ind AS 21, The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments do not have a material impact on the Company's financial statements.

- Income tax matters (refer note (iii) below)	2.01	2.01
- GST matters (refer note (iii) below)	-	1.00

Above amounts also include interest and penalty as mentioned in respective year wise demand orders.

Note:

(i) The Joint Commissioner (Appeals) adjudicated the Maharashtra VAT (MVAT) assessment for the financial years 2005-06 to 2017-18 and Central Sales Tax (CST) assessment for the financial years 2014-15 and 2015-16 against which the Company has filed appeals with the Maharashtra Sales Tax Tribunal (MSTT). During the year, MSTT passed an order dated 9 July 2025 quashing the demand and asked relevant authorities to recompute demand based on its order. Subsequently, the MVAT Department filed a review/rectification application before the MSTT against the said order. However, subsequent to the reporting date, the MSTT, vide its order dated 4 May 2026, dismissed the review/rectification application and upheld its earlier decision. The Company is awaiting further communication from authorities in this regard. Considering that the Department may pursue further legal proceedings/formalities in relation to the matter, the Company has continued to classify the matter as a contingent liability.

(ii) The total outstanding demand of ₹2.01 Million pertains to the assessment year 2018-19 and was raised by the Assessing Officer through an order dated 21 September 2021. An appeal against this order has been filed with the Commissioner of Income Tax ("CIT"). Based on interpretations of the relevant provisions of the Income Tax Act, 1961, and as per assessment of the Management, the demand is likely to be either deleted or substantially reduced. Accordingly, no provision has been considered necessary.

(iii) On 31 August 2024, the Company received a demand order amounting to ₹1.00 Million under Section 73(9) of the UPGST Act, 2017 for financial year 2019-20. The Company has filed an appeal against the said demand with the Joint Commissioner of State Tax (Appeals), Uttar Pradesh. During the year, the Company received an order dated 12 August 2025 from the Additional Commissioner, substantially deleting the entire demand raised earlier. Accordingly, no contingent liability has been considered necessary.

(b) Reconciliation of contract assets and liabilities:

	Contract Assets* ₹ in Million	Contract Liabilities** ₹ in Million	Net contract balances ₹ in Million
Balance as at 1 April 2024	510.95	762.67	(251.72)
Net increase/(decrease)	(152.21)	9.27	(161.48)
Balance as at 31 March 2025	358.74	771.94	(413.20)
Net increase/(decrease)	41.19	84.48	(43.29)
Balance as at 31 March 2026	399.93	856.42	(456.49)

*The contract assets primarily relates to the "Unbilled revenue" where Company's rights to consideration for performance obligation satisfied but not billed at the reporting date and the amount of "Retention money" held by the customers pending completion of performance milestones. The contract assets are transferred to receivables when the rights become unconditional. Invoices are raised on the customers based on the agreed contractual terms and are collected as per agreed payment terms. Retention money is reclassified as trade receivables when it becomes due for payment.

**The contract liability primarily relates to the "Advances from customer" towards on-going projects and "Billing in Excess of Contract Revenue" where progress billing exceeds the aggregate of contract costs incurred to-date plus recognised profits (or minus recognised losses, as the case may be). Revenue is recognised from the contract liability as and when such performance obligations are satisfied.

(i) Decrease in net contract balances is primarily due to higher progress bills raised as compared revenue recognition in both the periods.

(ii) Revenue recognised from opening balance of contract liabilities amounts to ₹ 552.10 Million (31 March 2025: ₹ 500.85 Million)

(iii) Revenue recognised from the performance obligation satisfied or partially satisfied upto 31 March 2025 (arising out of contract modifications) amounts to ₹ Nil (31 March 2025: ₹ Nil)

(c) Performance obligation

The Company undertakes façade engineering contracts which includes turnkey architectural facade solutions. The type of work in these contracts involve design and engineering services, supply of unitised and fabricated panels and installation including exterior glazing, cladding and other associated works.

The Company evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Contracts where the Company provides a significant integration service to the customer by combining all the goods and services are concluded to have a single performance obligations. Contracts with no significant integration service, and where the customer can benefit from each unit on its own, are concluded to have multiple performance obligations. In such cases consideration is allocated to each performance obligation, based on standalone selling prices. Where the Company enters into multiple contracts with the same customer, the Company evaluates whether the contract is to be combined or not by evaluating factors such as commercial objective of the contract, consideration negotiated with the customer and whether the individual contracts have single performance obligations or not.

The Company recognises contract revenue over time as the underlying assets have no alternative use to the Company and the Company has an enforceable right to payment for performance completed to date, either explicitly through contract terms or implicitly based on legal precedents. Revenue is recognised using the cost-based input method, wherein the stage of completion is determined by comparing the costs incurred to date with the estimated total contract costs. This method reflects the Company's performance in transferring control of goods or services to the customer.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Company's input methods of revenue recognition as the amounts are not reflective of our transferring control of the system to the customer. Significant judgement is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Company recognises the entire estimated loss in the year the loss becomes known. Variations in contract work, claims, incentive payments are included in contract revenue to the extent that may have been agreed with the customer and are capable of being reliably measured.

(d) Cost to obtain the contract:

(i) Amortisation in Statement of Profit and Loss: ₹ Nil (31 March 2025: ₹ Nil)

(ii) Recognised as contract assets: ₹ Nil (31 March 2025: ₹ Nil)

(e) Revenue recognition for future related to performance obligations that are unsatisfied (or partially satisfied):

While disclosing the aggregate amount of the transaction price allocated to unsatisfied (or partially satisfied) performance obligations and the broad time bands within which the Company expects to recognise the related revenue, the Company has applied the practical expedient available under Ind AS 115. Accordingly, the Company has not disclosed information regarding performance obligations that have an original expected duration of one year or less."

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revaluations of the estimates, economic factors (changes in tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is ₹5,394.79 Million (31 March 2025: ₹ 72,892.23 Million) is expected to be recognised as revenue in the next one to two years. No consideration from contracts with customers is excluded from the amount mentioned above.

(f) Practical expedients:

Applying the practical expedient in paragraph 63 of Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if at contract inception it is expected that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less.

Interest rate sensitivity

A hypothetical 50 basis point shift in floating rate, holding all other variables constant, on the unhedged loans would result in a corresponding increase/decrease in interest cost for the Company on a yearly basis as follows:

	Impact on profit/(loss) before tax		Impact on pre-tax Equity	
	31 March 2026	31 March 2025	31 March 2026	31 March 2025
	₹ in Million	₹ in Million	₹ in Million	₹ in Million
Interest rates - increase by 50 basis point	(0.33)	(0.42)	(0.33)	(0.42)
Interest rates - decrease by 50 basis point	0.33	0.42	0.33	0.42

(b) Liquidity risk management:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to maintain optimum levels of liquidity at all times to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including cash credit facility from banks at an optimised cost.

The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2026 and 31 March 2025 is the carrying amounts. The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 0 to 90 days. The carrying amounts are assumed to be a reasonable approximation of fair value. The following table analysis financial liabilities by remaining contractual maturities:

	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
	₹ in Million	₹ in Million	₹ in Million	₹ in Million	₹ in Million	₹ in Million
As at 31 March 2026						
Borrowings	-	5.05	14.74	47.03	-	66.82
Other financial liabilities	242.27	42.13	-	1.32	-	285.72
Trade payables	-	545.70	-	-	-	645.70
As at 31 March 2025						
Borrowings	-	4.72	13.11	66.81	-	84.64
Other financial liabilities	-	34.82	-	1.14	-	35.96
Trade payables	-	371.90	-	-	-	371.90

At present, the Company does expects to repay all liabilities at their contractual maturity. In order to meet such cash commitments, the operating activity is expected to generate sufficient cash inflows.

(c) Credit risk management:

(i) Trade receivables and retention

The Company's customer profile include large private corporates and reputed developers. Accordingly, the Company's customer credit risk is low. The Company's average project execution cycle is around 12 to 18 months. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 0 to 60 days and certain retention money to be released at the end of the project. In some cases, retentions are substituted with bank guarantees. The Company has a detailed review mechanism of overdue customer receivables at various levels within the organisation to ensure proper attention and focus for realisation.

The Company is making provisions on trade receivables based on Expected Credit Loss (ECL) model. The reconciliation of ECL is as follows:

	31 March 2026	31 March 2025
	₹ in Million	₹ in Million
Balance as at 1 April	88.49	79.50
Changes in loss allowance for expected credit loss:		
- Provision/(reversal) of allowance for expected credit loss	-	8.99
- Write off as bad debts	-	-
Balance as at 31 March	88.49	88.49

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables relating to its business, except for receivables from government entities and where there are customer advances available, based on a provision matrix. The provision matrix takes into account the industry factors, contractual agreements with customers, agreed collection pattern basis work completion, historical credit loss experience, if any and based on the ageing of the days the receivables are due. Taking these factors into consideration, the rates derived are as given in the provision matrix:

- 6-10% provided for trade receivables outstanding less than 2 years
- 100% provided for trade receivables outstanding for more than 2 years

(ii) Financial assets other than trade receivables

Financial assets other than trade receivables comprise of cash and cash equivalents, Bank balances other than cash and cash equivalents, loan to employees, investments and other financial assets. The Company monitors the credit exposure on these financial assets on a case-to-case basis. Based on the Company's historical experience, the credit risk on other financial assets is low.

(d) Commodity rate risk:

The Company undertakes façade engineering contracts which includes turnkey architectural facade solutions. These contracts entail procurement of aluminium profiles which may have direct to commodity prices. Accordingly, the Company is exposed to the price risk on aluminium profiles. To mitigate the risk of aluminium prices, the company relies on contractual provisions like pass through of prices, price variation provisions with certain customers etc. Accordingly, considering the contractual safeguards available under these arrangements, the remaining exposure of the Company to aluminium price volatility is not material.

(e) Capital management:

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents.

	31 March 2026 ₹ in Million	31 March 2025 ₹ in Million
Non-current borrowings (refer note 18)	47.36	67.29
current borrowings (refer note 18)	19.46	17.35
Borrowings	66.82	84.64
Less: Cash and cash equivalents (refer note 12)	321.08	3.18
Net debt (A)	(254.26)	81.46
Equity (refer note 16 & 17)	3,847.24	1,535.00
Total equity (B)	3,847.24	1,535.00
Capital and net debt (C=A+B)	3,592.98	1,616.46
Gearing ratio (%) (A/C)	-7.08%	5.04%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings as at 31 March 2026.

During the year ended 31 March 2025, the Company surrendered its cash credit facility from the consortium of banks and availed a new overdraft facility secured against fixed deposits. Further, during the year, the Company obtained a cash credit facility from standalone bank to enhance the efficiency of its working capital management (refer Note 18). Except for these changes, there were no modifications in the objectives, policies, or processes for managing capital during year ended 31 March 2026 and year ended 31 March 2025.

46 Financial Instruments

Disclosure pursuant to Ind AS 107 "Financial Instruments": Disclosures

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs based on unobservable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

*Includes current maturities of non-current borrowings

The fair value of assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The management assessed that fair value of cash and cash equivalents, trade payables and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Note:

The fair value for Level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.

47 (a) The Company has a configured process to take daily back-up of books of accounts maintained electronically on servers physically located in India, in compliance with the relevant provisions of the Companies (Accounts) Rules, 2014, (as amended) however, the company does not maintain a log of such backups. The Company is evaluating further course of action to ensure maintaining evidence of such backup logs.

(b) The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that audit trail feature is not enabled for direct changes to data for users with certain privileged / administrative access rights to the accounting software or the underlying database.

Additionally, company has preserved audit trail but has not maintained log of such preservation. The Company is evaluating appropriate steps to maintain necessary data.

49 On 21 November 2025, the Government of India notified four Labour codes (The New Labour Code), consolidating existing labour laws. In accordance with Ind AS 19, changes to the employee benefit plans arising from legislative amendments are treated as plan amendments, requiring immediate recognition of past service cost in the statement of profit and Loss. The New labour code has resulted in incremental liability of ₹ 5.55 Million which has been recognised in the Statement of Profit and Loss for the year ended 31 March 2026. Since the liability was not material, the Company has not classified the same as exceptional

INDEPENDENT AUDITOR'S REPORT

To the Members of Glass Wall Systems (India) Limited

Report on the Audit of the Consolidated Financial Statements**Opinion**

We have audited the consolidated financial statements of Glass Wall Systems (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") comprising of the consolidated Balance Sheet as at March 31 2026, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us , the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to Note 42 to the consolidated financial statements regarding restatement of prior period comparatives for the year ended March 31, 2025, to give the effect of the adjustments arising from the acquisition of the subsidiary which has been accounted for by the Company in accordance with Appendix C of Ind AS 103 'Business Combinations' pooling of interest method.

Our opinion is not modified in respect of this matter.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report but does not include the consolidated financial statements and our auditor's report thereon.

Page 2 of 8

Glass Wall Systems (India) Limited

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and its subsidiary included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraph 3(xxi) of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:

 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books except that the backup of the books of account and other books and papers maintained in electronic mode has not been maintained on servers physically located in India on daily basis and for the matters stated in paragraph (i)(vi) below on reporting under Rule 11 (g).

- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended, specified under section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2026 taken on record by the Board of Directors of the Holding Company and of its subsidiary company, none of the directors of the Group's companies is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above.
- (g) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (h) In our opinion, the managerial remuneration for the year ended March 31, 2026 has been paid / provided by the Holding Company and its subsidiary to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us :
- i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group in its consolidated financial statements – Refer Note 32 to the consolidated financial statements;
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary, during the year ended March 31, 2026.
 - iv. a) The respective managements of the Holding Company and its subsidiary have represented to us that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or such subsidiary to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or such subsidiary ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The respective managements of the Holding Company and its subsidiary have represented to us that, to the best of its knowledge and belief, no funds have been received by the respective Holding Company or such subsidiary from any persons or entities, including foreign entities ("Funding

Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or such subsidiary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- v) No dividend has been declared or paid during the year by the Holding Company and its subsidiary.
- vi) Based on our examination which included test checks, the Group has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for the software being used by the holding company for certain changes made, if any, using privileged/ administrative access rights, as described in note 49 to the consolidated financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software(s) where the audit trail has been enabled. Additionally, for the reasons stated in Note 49 to the consolidated financial statements, we are unable to comment on whether audit trail as per the applicable requirements has been preserved by the group as per the statutory requirements for record retention in respect of the year ended March 31, 2026.

Glass Wall Systems (India) Limited

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF GLASS WALL SYSTEMS (INDIA) LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to consolidated financial statements of Glass Wall Systems (India) Limited (hereinafter referred to as "the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group") as of March 31, 2026 in conjunction with our audit of the Consolidated financial statements of the Group for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls with reference to these consolidated financial statements.

Meaning of Internal Financial Controls With Reference to these Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the

Page 8 of 8

Glass Wall Systems (India) Limited

transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group has, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1 Corporate Information

Glass Wall Systems (India) Limited (formerly known as Glass Wall Systems (India) Private Limited) ("the Company" or "the Parent"), incorporated under the provisions of the Companies Act, 1956, is a leading façade engineering company in India. The Parent and its subsidiary (together referred to as "the Group") engaged in providing comprehensive solutions in architectural façades and glass curtain wall systems including installation of façades windows and doors in commercial & residential properties etc. including allied activities. The Company's registered office is located at 503-504, 5th Floor, A-Wing, Marathon Futurex, Mafatal Mills Compound, N.M. Joshi Marg, Lower Parel (East), Mumbai – 400013, Maharashtra. The Company holds Corporate Identification Number (CIN) CIN: U74999MH2010PLC207187 and operates a manufacturing facility located at D-120, Vile Bhagad Industrial Area, Village Warchiwadi, Tahuka Mangaon, Raigad-402308, Maharashtra.

Effective from 28 April 2025, the Company has been converted into a Public Limited Company. Pursuant to the conversion, its name has been changed from 'Glass Wall Systems (India) Private Limited' to 'Glass Wall Systems (India) Limited', and its Corporate Identification Number (CIN) has been updated from U74999MH2010PTC207187 to U74999MH2010PLC207187.

2 Material accounting policies

a) Basis of preparation

The consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (as amended from time to time), (Ind AS compliant Schedule III), as applicable, (the "Ind AS Financial Statements"), which have been approved by the Board of Directors at their meeting held on 13 August 2025.

All the amounts included in the said financial statements are reported in Million of Indian Rupees, which is also the functional currency of the Group, and are rounded to the Million, except per share data and unless stated otherwise.

b) Summary of material accounting policies

The Group maintains its accounts on accrual basis following historical cost convention, except for certain assets and liabilities, investment through profit and loss (FVTPL) and share based payment that are measured at fair value in accordance with Ind AS.

The Group has prepared the consolidated financial statements on the basis that it will continue to operate as a going concern.

In preparing these consolidated financial statements, management has made certain judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively in the year in which the estimates are revised and in any future periods affected (refer note 2(z)).

Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

The Group has identified twelve months as its operating cycle. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

All liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- It does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

c) Basis of consolidation

The consolidated financial statements comprise of the Company and its subsidiary as at 31 March 2026. The Company did not have any subsidiary as at and for the year ended 31 March 2025. Accordingly, These are the first consolidated financial statements of the group.

The consolidated financial statements comprise the financial statements of the Company and its subsidiary. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of the entity used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidated financial statements present assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiary as those of a single economic entity. In preparing these consolidated financial statements, below key consolidation procedures are followed:

- (a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiary. For this purpose, assets, liabilities, equity, income, expenses and cash flows of subsidiary are based on the amounts of the assets and liabilities determined as per the Business Combination policy and recognised in the consolidated financial statements at the acquisition date.
- (b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- (c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group. Profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the former subsidiary at their carrying amounts at the date when control is lost
- Derecognises the carrying amount of any non-controlling interests at the date when control is lost. This includes any components of OCI attributable to them.
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises a distribution if the transaction, event, or circumstances that resulted in the loss of control involves a distribution of shares in the subsidiary to owners in their capacity as owners
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind AS. Such reclassification/ transfer is decided on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.
- Recognises any surplus or deficit in profit or loss

Notes to the Consolidated Financial Statements for the year ended 31 March 2026

d) Business Combination under Common control

Common control business combination means a business combination involving entities or businesses in which all the combining entities or businesses are ultimately controlled by the Group both before and after the business combination, and that control is not transitory.

Business combinations involving entities or businesses under common control is accounted by the Group using the pooling of interests' method. The pooling of interest method is considered to involve the following:

a) The assets and liabilities of the combining entities are reflected at their carrying amounts.
b) No adjustments are made to reflect fair values or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies.

c) The financial information in the financial statements in respect of prior periods should be restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information shall be restated only from that date.

d) The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. Alternatively, it is transferred to General Reserve, if any.

e) The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.

f) The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor shall be transferred to capital reserve and should be presented separately from other capital reserves with disclosure of its nature and purpose in the notes.

e) Revenue recognition

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done using input method by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation as it best depicts the transfer of control that occurs as costs are incurred. The Group has generally concluded that it is the principal in its revenue arrangements.

The Group transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

- (a) the customer simultaneously consumes the benefit of the Company's performance or
- (b) the customer controls the asset as it is being created/ enhanced by the Company's performance or
- (c) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents,

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. The Group includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

(i) Revenue from construction/project related activity

Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs. Projects which are completed less than 10% of the total estimated project cost, revenue is recognised to the extent of actual cost incurred. Determination of revenues under the percentage of completion method necessarily involves making estimates by the management.

Generally, the Group receives mobilisation advances from its customers. Using the practical expedient in Ind AS 115, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

Contract balances and trade receivables

For contracts where the aggregate of contract cost incurred to date plus recognised profits (or minus recognised losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as "Unbilled revenue". For contracts where progress billing exceeds the aggregate of contract costs incurred to-date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as "Billing in Excess of Contract Revenue". Amounts received before the related work is performed are disclosed in the Balance Sheet as contract liability and termed as "Advances from customer". The amounts billed on customer for work performed and are unconditionally due for payment i.e. only passage of time is required before payment falls due, are disclosed in the Balance Sheet as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of contract asset and is reclassified as trade receivables when it becomes due for payment.

Impairment loss is recognised in profit or loss to the extent the carrying amount of the contract asset exceeds the remaining amount of consideration that the Group expects to receive towards remaining performance obligations (after deducting the costs that relate directly to fulfil such remaining performance obligations). The Group recognises impairment loss (termed as provision for expected credit loss in the financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

(ii) Other operating revenue

Other operational revenue represents income earned from the activities incidental to the business and is recognised when the performance obligation is satisfied and right to receive the income is established.

(a) Export incentives

Export incentives receivable in the form of duty credit scrips is recognised as other operating income in the consolidated statement of profit and loss in the period in which the export is done or the application is made to the government authorities and to the extent there is no uncertainty towards its receipt.

(b) Scrap sales

The Group recognises income from scrap sales on accrual basis. However, where the ultimate collection of the same is uncertain, revenue recognition is postponed to the extent of uncertainty.

(iii) Other income

(a) Interest income

Interest income on financial asset is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instruments.

(b) Dividends

Dividend is recognised when the Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

f) Property, plant and equipment (PPE)

PPE is recognised when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. PPE is stated at original cost net of tax/duty credits availed, if any, less accumulated depreciation and accumulated impairment, if any. All directly attributable costs related to the acquisition of PPE and borrowing costs in case of qualifying assets are capitalised in accordance with the Group's accounting policy.

For transition to Ind AS, the Group has elected to adopt as deemed cost, the carrying value of PPE measured as per previous GAAP less accumulated depreciation and cumulative impairment on the transition date of 1 April 2023.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance cost are charged to the consolidated statement of profit and loss during the period in which they are incurred.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as Capital work-in-progress (CWIP). CWIP is stated at cost net of accumulated impairment loss, if any.

PPE is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognised in the consolidated statement of profit and loss in the same period.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under "Other Non-Current Assets".

g) Depreciation

Depreciation on Property, Plant & Equipment except building is calculated on a written down value basis using the rates arrived at based on the useful lives estimated by the management. For Building depreciation is calculated on straight line basis using the rates arrived at based on the useful lives estimated by the management.

Glass Wall Systems (India) Limited

(Formerly known as Glass Wall Systems (India) Private Limited)

CIN: U74999MH2010PLC207187

Notes to the Consolidated Financial Statements for the year ended 31 March 2026

Depreciation method is reviewed at each financial year end to reflect the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life/residual value is accounted on prospective basis.

Depreciation on additions to/deductions from, owned assets is calculated pro-rata to the period of use.

Based on technical estimates, the useful lives of certain Plant & Equipments and Furniture & Fixtures are lower than those indicated in Schedule II to Companies Act, 2013. The Management believes that these estimated useful lives are realistic and reflects fair approximation over period which the assets are likely to be used.

The Group has used the following life to provide depreciation on its property, plant & equipment.

Assets	Useful lives as per Companies Act (years)	Useful lives estimated by the Group (years)
Buildings	60	60
Factory Buildings	3 to 30	5 to 30
Plant & Equipments	15 to 25	5 to 25
Furniture & Fixtures	10	3 to 10
Electrical Fittings	10	10
Office Equipments - Computers	3	3
Office Equipments - Others	5	3 to 6
Vehicles	6 to 30	8 to 10

Leasehold land is amortized on a straight line basis over the period of lease i.e. 90 to 95 years

h) Investment properties

Properties held to earn rentals and/or capital appreciation are classified as investment property.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

For transition to Ind AS, the Group has elected to adopt as deemed cost, the carrying value of investment property as per previous GAAP less accumulated depreciation and cumulative impairment as on the transition date of 1 April 2023.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment properties are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Group depreciates building component of investment property over 60 years from the date of original purchase.

Though the Group measures investment properties using cost-based measurement, the fair value of investment properties are disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment properties the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment properties only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

Advances paid towards the acquisition of investment properties outstanding at each balance sheet date is classified as Advance for property under "Other Non-Current Assets".

i) Intangible Assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the Group and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation and accumulated impairment, if any. All directly attributable costs and other administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalised as a part of the cost of the intangible assets.

Intangible assets are amortised uniformly over the best estimate of their useful lives. The Group has estimated the useful life of software ranging from 3 - 5 years from the date of acquisition. The method of amortisation and useful life are reviewed at the end of each financial year with the effect of any changes in the estimate being accounted for on a prospective basis.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

j) Impairment of assets

As at the end of each financial year, the carrying amounts of PPE, investment property and intangible assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, PPE, investment property and intangible assets are tested for impairment so as to determine the impairment loss, if any.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined:

(i) in the case of an individual asset, at the higher of the fair value less costs of disposal and the value-in-use; and

(ii) in the case of a cash generating unit (the smallest identifiable group of assets that generates independent cash flows), at the higher of the cash generating unit's fair value less costs of disposal and the value-in-use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount.

When an impairment loss recognised earlier is subject to full or partial reversal, the carrying amount of the asset (or cash generating unit), except impairment loss allocated to goodwill, is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss (other than impairment loss allocated to goodwill) is recognised immediately in the Statement of Profit and Loss.

k) Employee Benefits

(i) Defined contribution plans

In accordance with applicable Indian Law, eligible employees receive benefits from Provident Fund, Employee State Insurance Scheme and Labour welfare fund which is defined contribution plan. In case of Provident fund and Employee State Insurance Scheme, both the employee and employer make monthly contributions to the plan, which is administrated by the Government Authorities, each equal to the specific percentage of employee's basic salary. The Group has no further obligation under the plan beyond its monthly contributions. Obligation for contributions to the plan is recognised as an employee benefit expense in the Statement of Profit and Loss when incurred.

(ii) Defined benefit plans (Gratuity)

In accordance with applicable Indian Law, the Group provides for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering eligible employees. The Gratuity Plan provides a lumpsum payment to vested employees, at retirement or termination of employment, and amount based on respective last drawn salary and the years of employment with the Group. The Group's net obligation in respect of the Gratuity Plan is calculated by estimating the amount of future benefits that the employees have earned in return of their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service cost and the fair value of plan assets are deducted. The discount rate is yield at reporting date on risk free government bonds that have maturity dates approximating the terms of the Group's obligation. The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognised asset is limited to the total of any unrecognised past service cost and the present value of the economic benefits available in the form of any future refunds from the plan or reduction in future contribution to the plan.

The Group recognises all remeasurements of net defined benefit liability/asset directly in other comprehensive income and presented within equity.

iii) Compensated absences

Accumulated compensated absences, which are expected to be availed or encashed within 12 months from the end of the year are treated as short term employee benefits. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated as on the reporting date. The Group presents the entire compensated absences as a short term provisions, since employee has an unconditional right to avail the leave at any time during the year.

iv) Short term benefits

Employee benefits such as salaries, wages, short-term compensated absences, bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the service.

l) Share-based payment arrangements

The stock options granted to employees in terms of the Group's Stock Options Schemes, are measured at the fair value of the options at the grant date. The Group recognises the expense over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied, as determined on the grant date, based on the fair value of the options. If a grant lapses after the vesting period, the cumulative expenses in respect of such grant is transferred to the Retained Earnings within equity.

The share-based payment equivalent to the fair value as on the date of grant of employee stock options granted to key managerial personnel is disclosed as a related party transaction in the year of grant.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

m) Leases

The Group assesses at contract inception whether a contract contains a lease.

(i) As a Lessee

Assets taken on lease are accounted as right-of-use assets and the corresponding lease liability is recognised at the lease commencement date.

Initially the right-of-use asset is measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, as reduced by any lease incentives received.

The lease liability is initially measured at the present value of the lease payments, discounted using the Group's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or a rate, or a change in the estimate of the guaranteed residual value, or a change in the assessment of purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The right-of-use asset is measured by applying cost model i.e. right-of-use asset at cost less accumulated depreciation and cumulative impairment, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date to the end of the lease term.

Lease payments associated with following leases are recognised as expense on straight-line basis:

(a) Leases which are short-term of 12 months or less

(ii) As a Lessor

Assets given on lease are classified either as operating lease or as finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Asset held under finance lease is initially recognised in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance lease income is recognised over the lease term, based on a pattern reflecting a constant periodic rate of return on Group's net investment in the lease. A lease which is not classified as a finance lease is an operating lease.

The Group recognises lease payments in case of assets given on operating leases as income on a straight-line basis. The Group presents underlying assets subject to operating lease in its balance sheet under the respective class of asset.

n) Financial instruments

Financial assets and/or financial liabilities are recognised when the Group becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities and financial guarantee contracts are initially measured at fair value except for trade receivables not containing a significant financing component are initially measured at transaction price. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such financial assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realise the asset and settle the liability simultaneously.

(i) Financial assets:

A. All recognised financial assets are subsequently measured in their entirety either at amortised cost or at fair value as

1. Investments in equity instruments issued by other than subsidiary are classified as at FVTPL, unless the related instruments are not held for trading and the Group irrevocably elects on initial recognition to present subsequent changes in fair value in Other Comprehensive Income.

2. Trade receivables, cash and cash equivalents, Bank balances other than cash and cash equivalents, Other financial assets, Loans – at amortised cost.

B. A financial asset is primarily derecognised when:

1. the right to receive cash flows from the asset has expired, or

2. the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount at the date of derecognition and the consideration received is recognised in profit or loss.

C. Impairment of financial assets: Impairment loss on trade receivables and contract assets is recognised using expected credit loss model, which involves use of a simplified approach constructed on the basis of historical credit loss experience as permitted under Ind AS 109 and is adjusted for forward looking information. Impairment loss on investments is recognised when the carrying amount exceeds its recoverable amount. For all other financial assets, expected credit losses are recognised based on the difference between the contractual cash flows and all the expected cash flows, discounted at the original effective interest rate. ECLs are measured at an amount equal to 12-month expected credit losses or at an amount equal to lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Financial liabilities:

A. The Group's financial liabilities include trade payables, borrowings and other financial liabilities, are measured at amortised cost using Effective Interest Rate (EIR) method.

B. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

C. Compound financial instruments issued by the Group which can be converted into fixed number of equity shares at the option of the holders irrespective of changes in the fair value of the instrument are accounted by recognising the liability and the equity components separately. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and the equity components in proportion to their initial carrying amounts. Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequently.

o) Inventories

Raw materials are valued at lower of cost and net realizable value. Cost is determined using weighted average cost basis. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

p) Cash and bank balances

Cash and bank balances include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

Cash and cash equivalent in the balance sheet comprises of cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management.

q) Foreign currencies

The functional currency and presentation currency of the Group is Indian Rupee.

Transactions in foreign currencies are initially recorded by the Group at their functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised profit or loss are also recognised in profit or loss).

r) Segment information

Geographical segment are reported in manner consistent with the internal reporting provided to the Chief Operating Decision Maker.

The Board of Directors of the Group has been identified as the Chief Operating Decision Maker which reviews and assesses the financial performance and makes the strategic decisions.

s) Taxes

Tax expense comprises current tax expense and deferred tax

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Notes to the Consolidated Financial Statements for the year ended 31 March 2026

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group reflects the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

(ii) Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.

- In respect of deductible temporary differences associated with investments in subsidiary, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences

- In respect of taxable temporary differences associated with investments in subsidiary, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(iii) Goods and Service Tax ("GST")

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;

- When receivables and payables are stated with the amount of tax included.

t) Provisions, contingent liabilities and contingent asset

Provisions are recognised only when:

- (i) the Group has a present obligation (legal or constructive) as a result of a past event; and
- (ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- (iii) a reliable estimate can be made of the amount of the obligation.

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

- (i) a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or
- (ii) a present obligation arising from past events but is not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets are disclosed where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

u) Commitments

Commitments are future liabilities for contractual expenditure, classified and disclosed as follows:

- (i) estimated amount of contracts remaining to be executed on capital account and not provided for;
- (ii) uncalled liability on shares and other investments partly paid;
- (iii) other non-cancellable commitments, if any, to the extent they are considered material and relevant in the opinion of

Other commitments related to sales/procurements made in the normal course of business are not disclosed to avoid excessive details.

v) Assets held for sale

Non-current assets or disposal groups comprising of assets and liabilities are classified as 'held for sale' when all of the following criteria's are met:

- (i) Decision has been made to sell.
- (ii) The assets are available for immediate sale in its present condition.
- (iii) The assets are being actively marketed and
- (iv) Sale has been agreed or is expected to be concluded within 12 months of the Balance Sheet date.

These are measured at the lower of their carrying amount and fair value less costs to sale. Costs to sell are the incremental costs directly attributable to the disposal of assets (disposal group), excluding finance cost and income tax expenses.

w) Statement of cash flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the profit before tax excluding exceptional items for the effects of:

- (i) changes during the period in inventories and operating receivables and payables;
- (ii) non-cash items such as depreciation, provisions, unrealised foreign currency gains and losses; and
- (iii) all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as at the date of Balance Sheet.

x) Earnings per share

Basic earnings per share is computed using the net profit or loss after tax and weighted average number of shares outstanding during the year.

Diluted earnings per share is computed using the net profit or loss after tax and weighted average number of equity and potential equity shares outstanding during the year, except where the result would be anti-dilutive.

y) Government Grant

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

2) Significant accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Other disclosures relating to the Group's exposure to risks and uncertainties includes:

- Capital management Note 47(c)
- Financial risk management objectives and policies Note 47
- Sensitivity analyses disclosures Notes 47 (a)

Judgements:

In the process of applying the Group's accounting policies, the Management has made the following judgements, which have the most significant effects on the amounts recognised in the consolidated financial statements

(i) Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. In assessing the realisability of deferred tax assets arising from unused tax credits, the management considers convincing evidence about availability of sufficient taxable income against which such unused tax credits can be utilised. The amount of the deferred income tax assets considered realisable, however, could change if estimates of future taxable income changes in the future (refer note 45).

Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Useful lives of property, plant and equipment

Management reviews the useful lives of property, plant and equipment at least once a year. Such lives are dependent upon an assessment of both the technical lives of the assets, and also their likely economic lives based on various internal and external factors including relative efficiency, the operating conditions of the asset, anticipated technological changes, historical trend of plant load factor, historical planned and scheduled maintenance. This reassessment may result in change in depreciation and amortisation expected in future periods. It is possible that the estimates made based on existing experience are different from the actual outcomes and could cause a material adjustment to the carrying amount of property, plant and equipment. For the relative size of the Group's property, plant and equipment (refer note 2(f)).

(ii) Provisions and Contingencies

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change (refer note 18 to 23). In the normal course of business, contingent liabilities may arise from litigation and other claims against the Group. Potential liabilities that are possible but not probable of an outflow of resources embodying economic benefits are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised (refer note 32).

(iii) Defined benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. (refer note 40).

(iv) Expected credit loss

The measurement of expected credit loss on financial assets is based on the evaluation of collectability and the management's judgement considering external and internal sources of information. A considerable amount of judgement is required in assessing the ultimate realisation of the loans / receivables having regard to, the past collection history of each party and ongoing dealings with these parties, and assessment of their ability to pay the debt on designated dates (refer note 47(c)(i)).

(v) Cost to complete

Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. The percentage-of-completion method places considerable importance on accurate estimates to the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

(vi) DLP estimation

DLP (Defect Liability Period) is a specified period after the completion of a construction project during which the contractor is responsible for rectifying any defects or faults that may arise. Although DLP is project specific, it is generally varying from 12 months to 24 months depending on the contractual condition. During the DLP, the contractor carries out repairs and fix any defects from his own cost which appear in the workmanship, so that, at the end of the DLP, all works are as per specifications of the contract. Accordingly, the Parent makes provision of 1% of the revenue recognised from the construction contracts during the reporting period.

aa) Recent accounting pronouncement

A) Amendment in Ind AS effective from 1 April 2025:

The Ministry of Corporate Affairs (MCA) has notified certain amendments to Ind AS. Key amendments relevant to the Group are summarised below:

(i) Ind AS 1 - Classification of liabilities as current or non-current:

The amendment clarifies the meaning of a right to defer settlement, requires that such right must exist at the end of the reporting period, and confirms that classification is not affected by the likelihood of exercising this right. It also clarifies that the terms of a convertible liability affect classification only if the embedded derivative is equity classified. In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

If there is a breach of a material covenant of a long-term loan arrangement on or before the end of the reporting period, resulting in the liability becoming payable on demand as at the reporting date, and the lender agrees-after the reporting period but before the financial statements are approved for issue-not to demand repayment for at least 12 months as a consequence of the breach, this shall be treated as an adjusting event. Accordingly, the entity is not required to classify the liability as current.

The amendment is to be applied retrospectively in accordance with Ind AS 8. The Group has evaluated the impact and determined that these amendments do not have a material effect on the classification or presentation of liabilities for the year ended 31 March 2026.

(ii) Ind AS 7 and Ind AS 107 - Disclosures: Supplier Finance Arrangements:

These amendments require enhanced disclosures to help users of financial statements understand the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

The amendments are effective for annual periods beginning on or after 1 April 2025. Comparative information for earlier periods and disclosures for periods ending on or before 31 March 2026 are not required. These amendments do not have an impact on recognition or measurement in the current financial statements.

(iii) Ind AS 12 - International Tax Reform: Pillar Two Model Rules:

The amendment introduces a mandatory temporary exception from recognising and disclosing deferred tax assets and liabilities related to Pillar Two income taxes. This exception is applicable immediately and retrospectively, with additional disclosure requirements effective from 1 April 2025 (but not for interim periods ending on or before 31 March 2026).

The Group has concluded that the amendment does not have a material impact on its financial statements for the year ended 31 March 2026. The amendments had no impact on the Group's financial statements.

(iv) Amendments to Ind AS 21 - Lack of exchangeability

The Ministry of Corporate Affairs (MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2025, which amend Ind AS 21, The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments do not have a material impact on the Group's financial statements.

Nature and purpose of reserves

(i) Securities Premium

Securities Premium is used to record the premium received on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013 (refer note 42).

(ii) Capital redemption reserve

Capital Redemption Reserve is created in accordance with the provisions of Section 69 of the Companies Act, 2013, upon the buyback of equity shares out of free reserves or securities premium. The reserve can be utilised only for the purpose of issuing fully paid bonus shares to the shareholders in accordance with the provisions of the Companies Act, 2013 (refer note 42).

(iii) Capital reserve on business combination under common control

This reserve represents the difference arising on a business combination of entities under common control, accounted for in accordance with Appendix C to Ind AS 103 – Business Combinations Under Common Control. The excess of the carrying value of the net assets acquired over the consideration paid is recognised as Capital Reserve on Business Combination. This reserve is not available for distribution as dividend.

(iv) Employee share options

The fair value of the equity-settled share based payment transactions is recognised in statement of profit and loss with corresponding credit to Employee Stock Options Outstanding Account.

(v) Retained earnings:

Retained earnings are the profits that the Group has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders.

For the year ended 31 March 2025, EPS on Class B equity shares are calculated up to the date of its conversion into Equity shares (ordinary) i.e. 11 July 2024 is not annualised.

* Pursuant to resolutions passed by the Board of Directors and the Shareholders in their respective meeting held on 30 April 2025, the face value of the equity shares of the Company was sub-divided from ₹10/- each into five equity shares of ₹2/- each. In compliance with IND AS - 33, Earnings Per Share, the disclosure of basic and diluted earnings per share for all the years presented has been arrived at after giving effect to the above sub-division (refer note 16).

** There is no impact on diluted earnings per share arising from potential equity shares under the employee stock option, as the exercise price of the options is equal to the estimated market price of the shares during the year.

*** The weighted average number of equity shares includes 87,16,925 equity shares issued for the acquisition of Yes Systems Private Limited on 21 August 2025. As the acquisition has been accounted for as a common control business combination in accordance with Appendix C to Ind AS 103, the weighted average number of equity shares for the purpose of calculation of Basic and Diluted Earnings Per Share (EPS) has been considered and EPS has been computed as if the acquisition had occurred from the beginning of the earliest period presented. - Income tax matters (refer note (ii) below)	2.01	2.01
- GST matters (refer note (iii) below)	-	1.00

Above amounts also include interest and penalty as mentioned in respective year wise demand orders.

Note:

(i) The Joint Commissioner (Appeals) adjudicated the Maharashtra VAT (MVAT) assessment for the financial years 2005-06 to 2017-18 and Central Sales Tax (CST) assessment for the financial years 2014-15 and 2015-16 against which the Group has filed appeals with the Maharashtra Sales Tax Tribunal (MSTT). During the year, MSTT passed an order dated 9 July 2025 quashing the demand and asked relevant authorities to recompute demand based on its order. Subsequently, the MVAT Department filed a review/rectification application before the MSTT against the said order. However, subsequent to the reporting date, the MSTT, vide its order dated 4 May 2026, dismissed the review/rectification application and upheld its earlier decision. The Group is awaiting further communication from authorities in this regard. Considering that the Department may pursue further legal proceedings/formalities in relation to the matter, the Group has continued to classify the matter as a contingent liability.

(ii) The total outstanding demand of ₹2.01 Million pertains to the assessment year 2018-19 and was raised by the Assessing Officer through an order dated 21 September 2021. An appeal against this order has been filed with the Commissioner of Income Tax ("CIT"). Based on interpretations of the relevant provisions of the Income Tax Act, 1961, and as per assessment of the Management, the demand is likely to be either deleted or substantially reduced. Accordingly, no provision has been considered necessary.

(iii) On 31 August 2024, the Group received a demand order amounting to ₹1.00 Million under Section 73(9) of the UPGST Act, 2017 for financial year 2019-20. The Group has filed an appeal against the said demand with the Joint Commissioner of State Tax (Appeals), Uttar Pradesh. During the year, the Group received an order dated 12 August 2025 from the Additional Commissioner, substantially deleting the entire demand raised earlier. Accordingly, no contingent liability has been considered necessary.

At a point in time	89.00	49.96
Revenue from operations	4,569.71	2,783.28

(b) Reconciliation of contract assets and liabilities:

	Contract Assets* ₹ in Million	Contract Liabilities** ₹ in Million	Net contract balances ₹ in Million
Balance as at 1 April 2024	536.81	837.41	(300.60)
Net increase/(decrease)	(126.92)	(56.63)	(70.29)
Balance as at 31 March 2025	409.89	780.78	(370.89)
Net increase/(decrease)	81.65	99.23	(17.58)
Balance as at 31 March 2026	491.54	880.01	(388.47)

*The contract assets primarily relates to the "Unbilled revenue" where Group's rights to consideration for performance obligation satisfied but not billed at the reporting date and the amount of "Retention money" held by the customers pending completion of performance milestone. The contract assets are transferred to receivables when the rights become unconditional. Invoices are raised on the customers based on the agreed contractual terms and are collected as per agreed payment terms. Retention money is reclassified as trade receivables when it becomes due for payment.

**The contract liability primarily relates to the "Advances from customer" towards on-going projects and "Billing in Excess of Contract Revenue" where progress billing exceeds the aggregate of contract costs incurred to-date plus recognised profits (or minus recognised losses, as the case may be). Revenue is recognised from the contract liability as and when such performance obligations are satisfied.

(i) Decrease in net contract balances is primarily due to higher progress bills raised as compared revenue recognition in both the years.

(ii) Revenue recognised from opening balance of contract liabilities amounts to ₹ 560.23 Million (31 March 2025: ₹ 575.61 Million)

(iii) Revenue recognised from the performance obligation satisfied (or partially satisfied) upto 31 March 2025 (arising out of contract modifications) amounts to ₹ Nil (31 March 2025: ₹ Nil)

(c) Performance obligation

The Group undertakes façade engineering contracts which includes turnkey architectural facade solutions. The type of work in these contracts involve design and engineering services, supply of unitised and fabricated panels and installation including exterior glazing, cladding and other associated works.

The Group evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Contracts where the Group provides a significant integration service to the customer by combining all the goods and services are concluded to have a single performance obligations. Contracts with no significant integration service, and where the customer can benefit from each unit on its own, are concluded to have multiple performance obligations. In such cases consideration is allocated to each performance obligation, based on standalone selling prices. Where the Group enters into multiple contracts with the same customer, the Group evaluates whether the contract is to be combined or not by evaluating factors such as commercial objective of the contract, consideration negotiated with the customer and whether the individual contracts have single performance obligations or not.

The Group recognises contract revenue over time as the underlying assets have no alternative use to the Group and the Group has an enforceable right to payment for performance completed to date, either explicitly through contract terms or implicitly based on legal precedents. Revenue is recognised using the cost-based input method, wherein the stage of completion is determined by comparing the costs incurred to date with the estimated total contract costs. This method reflects the Group's performance in transferring control of goods or services to the customer.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Group's input methods of revenue recognition as the amounts are not reflective of our transferring control of the system to the customer. Significant judgement is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Group recognises the entire estimated loss in the year the loss becomes known. Variations in contract work, claims, incentive payments are included in contract revenue to the extent that may have been agreed with the customer and are capable of being reliably measured.

(d) Cost to obtain the contract:

(i) Amortisation in Statement of Profit and Loss: ₹ Nil (31 March 2025: ₹ Nil)

(ii) Recognised as contract assets: ₹ Nil (31 March 2025: ₹ Nil)

(e) Revenue recognition for future related to performance obligations that are unsatisfied (or partially satisfied):

While disclosing the aggregate amount of the transaction price allocated to unsatisfied (or partially satisfied) performance obligations and the broad time bands within which the Group expects to recognise the related revenue, the Group has applied the practical expedient available under Ind AS 115. Accordingly, the Group has not disclosed information regarding performance obligations that have an original expected duration of one year or less."

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is ₹6,375.07 Million (31 March 2025: ₹ 3,205.41 Million) is expected to be recognised as revenue in the next one to two years. No consideration from contracts with customers is excluded from the amount mentioned above.

(f) Practical expedients:

Applying the practical expedient in paragraph 63 of Ind AS 115, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if at contract inception it is expected that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less.

42 Business combination

Disclosure pursuant to Ind AS 103 "Business Combinations":

Acquisition of Yes Systems Private Limited

During the year ended 31 March 2026, the Company acquired 100% equity shares of Yes Systems Private Limited ("Yes Systems") pursuant to a Share Purchase and Swap Agreement dated 21 August 2025.

Yes Systems Private Limited is in the business of Installation of fenestration in commercial & residential properties etc. including allied activities.

As part of the acquisition, the Company issued fully paid equity shares to the shareholders of Yes Systems Private Limited in the exchange ratio of 10,000 : 17,43,385. Accordingly, for 50,000 fully paid equity shares of ₹10 each held in Yes Systems Private Limited, the shareholders received 87,16,925 fully paid equity shares of ₹2 each of Glass Wall Systems (India) Limited.

The acquisition consideration aggregated to ₹1,549.96 Million and has been recorded as an investment in the standalone financial statements of the Company as per Ind AS 27 "Separate Financial Statements". This amount comprises equity share capital of ₹17.43 million and securities premium of ₹1,532.53 Million.

Both the entities, being under control of same group of shareholders, this acquisition has been accounted by the Company using the common control method in accordance with Appendix C of Ind AS 103 "Business Combinations" (Appendix C) using pooling of interest method in the consolidated financial statements of the group.

The key accounting treatments applied are as follows:

(a) Assets, liabilities, and reserves of Yes Systems Private Limited have been recorded at their existing carrying amounts as appearing in the books of the transferor company as at the effective date of combination.

(b) The identity of reserves (including retained earnings and other reserves) of the Yes Systems Private Limited has been preserved.

(c) In accordance with Appendix C, the consideration for the business combination has been considered at the nominal value of the equity shares issued by the Company. Accordingly, the carrying value of the investment has been reduced by the securities premium recognised in the standalone financial statements to align the consideration with the nominal value of the shares issued, hence, securities premium recorded in standalone financial statements is eliminated and does not appear in consolidated financial statements.

The difference between Purchase consideration recorded in consolidated financial statements and the equity share capital of Yes Systems Private Limited has been recognised as Capital Reserve on Business Combination, which is not available for distribution as dividend.

1 % increase or decrease in foreign exchange rates will have the following impact on profit before tax and pre-tax equity

	31 March 2026		31 March 2025	
	1 % increase ₹ in Million	1 % ₹ in Million	1 % increase ₹ in Million	1 % decrease ₹ in Million
Trade receivables	6.17	(6.17)	1.73	(1.73)
Cash and cash equivalents	1.80	(1.80)	-	-
Other financial liabilities	(2.42)	2.42	-	-
Trade payable*	(0.02)	0.02	(0.00)	0.00

* 0.00 indicates value less than ₹ 0.01 Million.

(ii) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to changes in interest rates relates primarily to the Group's outstanding floating rate borrowings. The interest rate are disclosed in the respective notes to the financial statement of the Group. The following table analyses the breakdown of the financial assets and liabilities by type of interest rate:

	31 March 2026 ₹ in Million	31 March 2025 ₹ in Million
Financial assets		
<u>Interest bearing</u>		
- Fixed interest rate		
Bank balances other than Cash and cash equivalents	534.48	752.81
Other financial assets	461.23	18.31
<u>Non interest bearing</u>		
Investments	0.50	0.50
Trade receivables	1,089.62	507.66
Cash and cash equivalents	324.79	26.15
Loans	4.64	4.43
Other financial assets	34.41	85.75
Financial Liabilities		
<u>Interest bearing</u>		
- Floating interest rate		
Borrowings	66.82	84.64
<u>Non interest bearing</u>		
Trade payables	655.47	377.88
Other financial liabilities	292.21	73.09

Interest rate sensitivity

A hypothetical 50 basis point shift in floating rate, holding all other variables constant, on the unhedged loans would result in a corresponding increase/decrease in interest cost for the Group on a yearly basis as follows:

	Impact on profit/(loss) before tax		Impact on pre-tax Equity	
	31 March 2026 ₹ in Million	31 March 2025 ₹ in Million	31 March 2026 ₹ in Million	31 March 2025 ₹ in Million
Interest rates - increase by 50 basis point	(0.33)	(0.42)	(0.33)	(0.42)
Interest rates - decrease by 50 basis point	0.33	0.42	0.33	0.42

(b) Liquidity risk management:

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to maintain optimum levels of liquidity at all times to meet its cash and collateral requirements. The Group closely monitors its liquidity position and employs a robust cash management system. It maintains adequate sources of financing including cash credit facility from banks at an optimised cost.

The Group's maximum exposure to credit risk for the components of the balance sheet at 31 March 2026 and 31 March 2025 is the carrying amounts. The liquidity risk is managed on the basis of expected maturity dates of the financial liabilities. The average credit period taken to settle trade payables is about 0 to 90 days. The carrying amounts are assumed to be a reasonable approximation of fair value. The following table analysis financial liabilities by remaining contractual maturities:

	On demand	Less than 3 months	3 to 12 months	1 to 5 years	>5 years	Total
	₹ in Million	₹ in Million	₹ in Million	₹ in Million	₹ in Million	₹ in Million
As at 31 March 2026						
Borrowings	-	5.05	14.74	47.03	-	66.82
Other financial liabilities	242.27	48.62	-	1.32	-	292.21
Trade payables	-	655.46	-	-	-	655.46
As at 31 March 2025						
Borrowings	-	4.72	13.11	66.81	-	84.64
Other financial liabilities	-	71.95	-	1.14	-	73.09
Trade payables	-	377.87	-	-	-	377.87

At present, the Group does expects to repay all liabilities at their contractual maturity. In order to meet such cash commitments, the operating activity is expected to generate sufficient cash inflows.

(c) Credit risk management:

(i) Trade receivables and retention

The Group's customer profile include large private corporates and reputed developers. Accordingly, the Group's customer credit risk is low. The Group's average project execution cycle is around 12 to 18 months. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 0 to 60 days and certain retention money to be released at the end of the project. In some cases, retentions are substituted with bank guarantees. The Group has a detailed review mechanism of overdue Group receivables at various levels within the organisation to ensure proper attention and focus for realisation.

The Group is making provisions on trade receivables based on Expected Credit Loss (ECL) model. The reconciliation of ECL is as follows:

	31 March 2026	31 March 2025
	₹ in Million	₹ in Million
Balance as at 1 April	90.73	79.50
Changes in loss allowance for expected credit loss:	-	-
- Provision/(reversal) of allowance for expected credit loss	0.24	11.23
- Write off as bad debts	-	-
Balance as at 31 March	90.97	90.73

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables relating to its business, except for receivables from government entities and where there are customer advances available, based on a provision matrix. The provision matrix takes into account the industry factors, contractual agreements with customers, agreed collection pattern basis work completion, historical credit loss experience, if any and based on the ageing of the days the receivables are due. Taking these factors into consideration, the rates derived are as given in the provision matrix:

- 6-10% provided for trade receivables outstanding less than 2 years
- 100% provided for trade receivables outstanding for more than 2 years

(ii) Financial assets other than trade receivables

Financial assets other than trade receivables comprise of cash and cash equivalents, Bank balances other than cash and cash equivalents, loan to employees, investments and other financial assets. The Group monitors the credit exposure on these financial assets on a case-to-case basis. Based on the Group's historical experience, the credit risk on other financial assets is low.

(d) Commodity rate risk:

The Group undertakes façade engineering contracts which includes turnkey architectural facade solutions. These contracts entail procurement of aluminium profiles which may have direct to commodity prices. Accordingly, the Group is exposed to the price risk on aluminium profiles. To mitigate the risk of aluminium prices, the Group relies on contractual provisions like pass through of prices, price variation provisions with certain customers etc. Accordingly, considering the contractual safeguards available under these arrangements, the remaining exposure of the Group to aluminium price volatility is not material.

(e) Capital management:

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents.

	31 March 2026	31 March 2025
	₹ in Million	₹ in Million
Non-current borrowings (refer note 18)	47.36	67.29
current borrowings (refer note 18)	19.46	17.35
Borrowings	66.82	84.64
Less: Cash and cash equivalents (refer note 12)	324.79	26.15
Net debt (A)	(257.97)	58.49
Equity (refer note 16 & 17)	2,598.84	1,740.59
Total equity (B)	2,598.84	1,740.59
Capital and net debt (C=A+B)	2,340.87	1,799.08
Gearing ratio (%) (A/C)	-11.02%	3.25%

In order to achieve the overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings as at 31 March 2026.

During the year ended 31 March 2025, the Parent Company surrendered its cash credit facility from the consortium of banks and availed a new overdraft facility secured against fixed deposits. Further, during the year, the Parent Company obtained a cash credit facility from standalone bank to enhance the efficiency of its working capital management (refer Note 18). Except for these changes, there were no modifications in the objectives, policies, or processes for managing capital during the year ended 31 March 2026 and 31 March 2025.

48 Financial Instruments

Disclosure pursuant to Ind AS 107 "Financial Instruments": Disclosures

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs based on unobservable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

*Includes current maturities of non-current borrowings

The fair value of assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The management assessed that fair value of cash and cash equivalents, trade payables and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

Note:

The fair value for Level 3 instruments is valued using inputs based on information about market participants assumptions and other data that are available.
